Position: Quality Control and Validation Associate

Company: Cynvenio Biosystems, Inc.
Westlake Village, California
www.cynvenio.com

Contact: careers@cynvenio.com

Location: Westlake Village, California

Cynvenio Biosystems is a start-up focused on advancing personalized medicine by developing high performance instruments and assays that support the R&D market in life sciences. Our proprietary instrumentation, sample handling, cell sorting, detection, and amplification technologies enables novel applications in stem cell & cancer research, as well as the discovery and validation of novel therapeutic solutions.

We are seeking a highly motivated and talented Quality Control Associate to implement quality control and validation of protocols and platforms used for the performance of protein and cell separation assays. The ideal candidate will have a BS or MS in Biochemistry, Biology or a related field. 1-2 years experience in Quality Assurance or SOP development and validation is a must. Excellent communication skills are necessary. We are a fast paced, diverse and dynamic environment. The successful candidate will be have the confidence and independence to thrive in this.

Our compensation package is competitive and dependent on your qualifications and experience. If you're an outstanding Quality Associate who would like to join a cutting edge team to change the world, we'd love to hear from you. Contact us at careers@cynvenio.com.
